

Privacy Policy - SolChatPlus

Last Updated: February 26, 2026

At **SolChatPlus**, we value your privacy and are committed to protecting it under the principles of data sovereignty and decentralization. This policy describes how we handle information within our Web3 architecture.

1. Information We Collect

Unlike conventional messaging applications, **we do not** collect or store Personally Identifiable Information (PII).

- **No Personal Data:** We do not request names, email addresses, phone numbers, or access to your contact list.
- **Wallet Address (Public Key):** This is the only identifier we use. It is required to validate your identity on the Solana network, allow access to NFT-validated groups, and facilitate messaging.
- **Technical Metadata:** We collect minimal technical data necessary for sending and receiving messages, which is end-to-end encrypted to ensure that no one else can read them.

2. Transparency on the Blockchain

By using SolChatPlus, you interact directly with the **Solana** network.

- **Public Records:** Any transaction or interaction recorded on the blockchain is public by nature. We do not have the power to delete or modify data that has already been confirmed on the network.
- **NFT Validation:** Our App queries the Solana blockchain externally to verify the ownership of digital assets (NFTs) required to access specific communities.

3. Third-Party Services and Wallets

SolChatPlus integrates with wallet providers such as **Phantom** or **Solflare**.

- **No Access to Keys:** We never have access to your seed phrases, private keys, or passwords.
- **External Security:** The use of these wallets is governed by the terms and privacy policies of their respective developers.

4. Information Security

We implement advanced security protocols to protect communications within the App. However, in the Web3 ecosystem, **the ultimate responsibility for security lies with the user.**

- You are solely responsible for safeguarding your wallet.
- Losing access to your wallet means a total loss of access to your SolChatPlus account and your message history.

5. Minors

SolChatPlus is not directed at children under the age of 13. We do not knowingly collect any type of information from minors.

6. Changes to This Policy

We reserve the right to update this policy to reflect changes in the App or in the regulations of the crypto ecosystem. Any changes will be posted on our official website or through an in-app notice.

7. Contact

If you have questions about this policy or the operation of the App, you can contact us through our official website: <http://solchatplus.xyz>.
