

# Intellectual Property & Copyright Notice: SolChatPlus

**Effective Date:** February 26, 2026

## 1. Ownership of Assets

The **SolChatPlus** application, including but not limited to its source code, object code, user interface, graphics, logos, icons, brand name, and "look and feel," is the exclusive intellectual property of the SolChatPlus development team (the "Owner"). These assets are protected by international copyright, trademark, and other intellectual property laws.

## 2. Grant of Use

The Owner grants users a personal, non-exclusive, non-sublicensable license to use the application solely through the official distribution channels (such as the Solana dApp Store). Any use of the App's components outside of its intended function is strictly prohibited without prior written consent.

## 3. Prohibited Actions

Users and third parties are strictly prohibited from:

- **Reverse Engineering:** Attempting to extract, decompile, or disassemble the source code of SolChatPlus.
- **Redistribution:** Copying, modifying, or distributing any part of the App or its proprietary assets for commercial or non-commercial purposes.
- **Impersonation:** Using the SolChatPlus name, logo, or brand elements to create confusingly similar products or services.

## 4. Third-Party Licenses

SolChatPlus may utilize open-source libraries (e.g., Flutter, Solana Web3 SDKs). These components are used under their respective licenses (MIT, Apache 2.0, etc.). Ownership of these specific libraries remains with their original creators, and SolChatPlus does not claim any rights over them.

## 5. Digital Millennium Copyright Act (DMCA) Notice

If you believe that any content within SolChatPlus infringes upon your copyright, please send a formal notice to our team via our official website: <http://solchatplus.xyz>. Your notice must include:

1. A description of the copyrighted work.
2. The location within our App of the infringing material.
3. Your contact information.

## **6. Reservation of Rights**

The Owner reserves all rights not expressly granted in this document. Unauthorized use of the SolChatPlus intellectual property may result in legal action and the termination of the user's access to the application.
